Temple Terrace Board Members:

We are writing on behalf of Tatiana Toumbeva and Blake Lennon, our friends and next door neighbors over the past few years. Tatiana, Blake, and Grace have been treasured members of the community, and though it would be a shame for our neighborhood to lose them, we know that their familial ties and support system will allow their growing family to continue flourishing in your community.

Blake and Tatiana are tremendous neighbors, taking the utmost care of their home, landscaping, etc. They are not simply quiet and respectful neighbors, but moreover make an effort to cultivate relationships with all of our community members. They create a warm and festive environment during holidays and other celebrations, often opening their home to friends and neighbors. Our children spend a great deal of time together, and we've had the fortune of getting to know their extended family, with whom they are of course incredibly close. It is obvious that this bond is the only thing that could bring them to uproot, and we sincerely hope you afford them the opportunity to put down roots in Temple Terrace.

Sincerely,

Jason and Asia Dumont
